The International Women's Day 8th March 2019, was observed enthusiastically by the women of ONE India. Going with the global theme for International Women's Day, "Balance for Better," ONE India HR organized a doctor led health talk for women at the Mumbai Office on 7th March, that focused on women's gynaecological and reproductive health, stress related health issues, cancers afflicting women, adolescent health for the girl child, nutritious food habits etc. Women colleagues from other locations joined the session through hangout. The talk was followed by a Q&A session that addressed health issues faced by women and was much appreciated by all attendees.

The following day, on 8th March celebrated all over the world as International Women's Day, around 30 women in ONE Mumbai Office including the lady support staff had a wonderful celebration including fun games and lunch. Some of our male colleagues helped make the day extra special, walking in with some delicious cakes and chocolates! At small location offices of ONE India with one or few lady members, the male colleagues stepped in to acknowledge their lady colleagues with small celebrations.
